TOMMY AARSTEIN

FRONT-END DEVELOPER STUDENT / TROMSØ, NORWAY

tommy@aarstein.no · 980 11 555 · github.com/tommyaarstein

PROFILE

Front-end development student at Noroff with a practical technical background and previous back-end coursework. I enjoy building clear, well-structured web interfaces and solving problems through iteration, testing and hands-on work. My background outside software has also given me a strong sense of responsibility, accuracy and persistence.

SKILLS

CORE

HTML / CSS / JavaScript / Responsive web design / Git / GitHub / VS Code

COURSEWORK

Node.js / Express / REST APIs / EJS / MySQL / Sequelize / jQuery / Object-oriented JavaScript

SELECTED PROJECTS

PERSONAL PROJECT

MealWheel

Mobile-friendly meal planning app where users can save meals, spin a wheel to choose dinner, create shopping lists and plan weekly menus. Built with Next.js, TypeScript, Tailwind CSS and Supabase, and deployed on Vercel. Currently new accounts has to be accepted via dashboard to view the site.

CLIENT WORK

Into Nature Arctic — website redesign

Worked on a website redesign with focus on structure, presentation and user experience. Learning more about SEO gave the website more views and clicks.
